

Synergies and Linkages with other Development Engagement Partners (DEPs) under BSPS-IV

LIC will develop close links with other DEPs of the BPS IV, as summarised in the table below.

BSPS IV - DEPs	Programme Linkages and Synergies
Agricultural Markets Development (AMDT)	LIC is set to focus on local clusters and will complement the Agricultural Markets Development Trust. It will access the support provided by the Trust and will facilitate access to this support based on local cluster dynamics.
BEST-Dialogue	LIC will liaise closely with BEST-Dialogue. It will facilitate the implementation of Local Business Environment Reform Plans (which are agreed to by LGAs and the local business community) through applications for grants provided by BEST-Dialogue and will help TCCIA and other appropriate business membership organisations to apply for block grant assistance. Finally, BEST-Dialogue will be connected to the operations of the SIFF to ensure that any reform issues arising at the local level are captured, where appropriate, by broader (i.e., national) reform efforts.
Access to Finance PASS	LIC will help local actors access to various credit facilities, including Private Agriculture Sector Support (PASS). PASS works consistently to improve its outreach.
